You might find it useful to refer to The Pension Advisory Service website and use their Identifying a Pension Scam Tool which can be found at **www.pensionsadvisoryservice.org.uk/my-pension/online-tools**.

These requirements may limit the amount that is able to be transferred as we must ensure there are sufficient funds to cover fees, future costs and liabilities in relation to the assets held. Where there are few liabilities in relation to the scheme, we may consider and approve a transfer to go ahead. However, this is done on a case-by-case basis, and we cannot guarantee this will apply to the scheme in question.

10 FREQUENTLY ASKED QUESTIONS**Can I transfer part of my crystallised funds?**

No, your crystallised funds must be kept intact, unless you want to transfer to an Annuity.

What is an in-specie transfer?

An in-specie transfer is where the assets you hold remain invested and are transferred to the new pension scheme provider without first converting them to cash.

How long will an in-specie transfer take?

The time needed to complete an in-specie transfer is determined by the investment companies involved.

What are the liquidity rules concerning Property and Unlisted Shares?

We require that at least **10%** of the value of each of our SIPP schemes should be held in standard investments (including cash deposits).

These requirements may limit the amount that is able to be transferred as we must ensure there are sufficient funds to cover fees, future costs and liabilities in relation to the assets held. Where there are few liabilities in relation to the scheme, we may consider and approve a transfer to go ahead. However, this is done on a case-by-case basis and we cannot guarantee this will apply to the scheme in question.

What do I need to consider when disinvesting funds?

Encashing your investments at a time of volatility in the financial markets may mean your pension fund may be significantly lower than it was previously. It is extremely important to understand that transferring your pension to a new pension provider by way of a cash transfer may compromise your pension in the future.

Furthermore, if you encash your investments now, you may miss out on any future increases in value if markets recover.

How do I sell my property?

You will need to complete our Property Disposal form. Notes and guidance are available on this form, however the time needed to complete the sale of your property is unknown and this needs to be considered before you initiate a transfer out request.
