## QUESTIONS AND ANSWERS

### What is covered by the membership to scheme fee?

On an annual basis this fee will cover ongoing administration by us including banking transactions, liaising with third parties, forwarding correspondence and producing illustrations and annual statements.

### What is covered by the transfer fee?

The transfer fee covers all administration work which is required in order to receive the pension funds/assets from a transferring scheme based in the UK. This will be charged per transfer however if you have several policies and they are all with the same provider only one transfer fee will be charged. This fee will cover liaising with the transferring scheme, receiving and processing transfer paperwork, forwarding any relevant paperwork to you and sending confirmation of funds received.

### What is the early drawdown fee?

All drawdown payments are made on the 28th of each month. If you cannot wait until the 28th and would like an early payment, this fee will apply.

### When would the SIPP closure fee be payable?

The SIPP closure fee is charged when you empty your SIPP through drawdown.

### What does the fee for transferring out cover?

This fee covers processing the transfer out form and liaising with the receiving scheme, completing any documents required by the receiving scheme, sending pension funds and confirmation to the receiving scheme and closing your SIPP.

For an in-specie transfer out there is an additional fee due to the additional administration required, for example liaising with stockbrokers and reassigning policies.

### What is the SIPP bank account interest rate?

As part of our agreement with our preferred banking partner, any cash deposits receive interest. Our preferred banking partner may pay us an additional rate above this to cover any transactional costs associated with the management of your bank account.

The rate we receive may also fluctuate.

### How will annual fees be collected?

We will retain a year's fees in your SIPP bank account and will organise a regular annual disinvestment if insufficient cash is left in the account to cover future fees.
